Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1755

This application has been transferred to Primary Examiner David M. Brunzman. Upon review of the application file, the outstanding rejections are withdrawn without prejudice and prosecution of the elected claims has been restarted. Claims 1, 2, 5, 7 and 12-16 are pending and currently under consideration.

Claims 1, 2, 5, 7, 12-16 are generic to a plurality of disclosed patentably distinct species comprising coating compositions having each of the particular binders, first and second pigments recited in claim 1. The instant claims as written would impose an undue burden on the office and the required search would include hundreds of subclasses across numerous classes in the US patent classification system.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. For purposes of initial examination applicant is required to elect a single distinct material or compound for each of the binder, first pigment and second pigment. For example, applicant could elect the coating composition comprising a binder of cyclized rubber lacquer, a first pigment comprising the combination of iron oxide red and ultramarine blue and a second pigment comprising zinc flakes.

Upon election the scope of search and consideration will be expanded to be commensurate with that required for the elected species.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 1755

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David M. Brunsman whose telephone number is 571-272-1365. The examiner can normally be reached on M, W, F, Sa; 6:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on 571-272-1362. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
